

REMARKS

This is responsive to the Office Action mailed on March 24, 2004.

In the Office Action, the Examiner allowed all of the claims, claims 1-36. The Examiner objected to the drawings because they failed to show device 10 as described in specification. Enclosed with this response is a set of corrected drawings.

In addition, the Examiner noted that the reference character "30" and the reference character "34" were used twice to indicate different elements. The drawings have been corrected by substituting the reference character "31" to designate the apertures and the reference character "33" to designate the flat surface.

It is believed that the drawing corrections are responsive to the Office Action, and requested that the objection to the drawings be withdrawn and that the application now be passed to issuance.

The Director is authorized to charge any fee deficiency required by this paper or credit any overpayment to Deposit Account No. 23-1123.

Respectfully submitted,

WESTMAN, CHAMPLIN & KELLY, P.A.
